

Energy Loan

Put long-term savings in your forecast

Bring your operation one step closer towards energy self-sufficiency. With a special interest rate, the Energy Loan helps you make the switch to renewable energy sources like biogas, geo-thermal, wind or solar power. Take charge of your future, enjoy energy savings and feel good doing it.

Features

- special interest rate on the first \$500,000
- no loan processing fees on the first \$500,000

Benefits

- save money on your energy bills
- make your farm or business more cost effective and efficient
- contribute to reducing the demand on the energy grid
- take advantage of provincial and federal energy grants and incentives (where available)

Security

This loan is normally secured with real or personal property.

Repayment

- monthly, quarterly, semi-annual or annual payments available
- fixed or variable rates

Insurance

Ask us about protecting your family and business with loan life and accident insurance.
